Elmamation Corona – Watch Winders

The Elmamation Corona watch winders are made of genuine walnut burl wood, with fine leather and latest technology. **The selected woods are hand-cut 10-fold, coated with lacquer** to receive their elegant luster.

These watch winders are characterized by **sophisticated and innovative technology for easy adjustment of all watch parameters.**

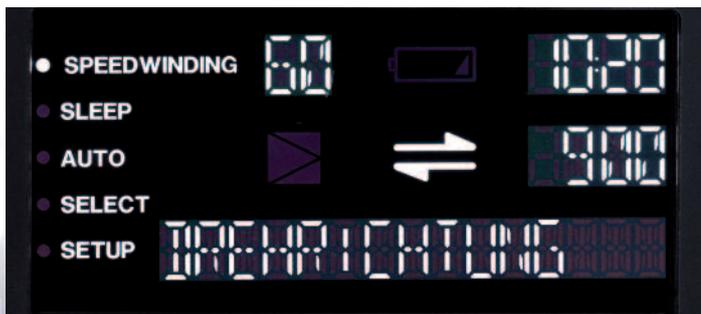

Features:

- Adjustable frequencies from 650 to 1800 revolutions daily.
- Adjustable rotationsmodi: left/right/alternating – conserves battery and movement.
- Speed winding: for rapid winding.
- Sleep phase for simulation of structural behavior and thus to relax the mainspring.

Dark Design Display:

- Clear-to-read LCD display with white LED backlight.
- 12-clock endposition for an optimal presentation of the wristwatches in the sleep phase.

Battery operation and mains operation is possible (not included). **Power adapter, Art.-No. 609 575, or batteries (C-Baby) should be ordered separately.**
